Docket No.: JCLA12040

REMARKSResponse to 35 U.S.C. 121

The Examiner issued a restriction requirement. According to the Office Action, there are patentably distinct groups and species in the claimed invention and a restriction to one of these species of the elected group in claims is required under 35 U.S.C. 121.

According to the Office Action dated October 03, 2005, there are two patentably distinct groups including claims 1-6 drawn a device and claims 7-12 drawn a method. In particular, either group I or II are elected, this application contains claims directed to the following patentably distinct species of the claimed invention:

- (1) the specifics of the device and method comprising a MVA-LCD comprising wide view films on a first and second surface of a thin film transistor liquid crystal panel corresponding to Figs. 2-3B; **OR**
- (2) the specifics of the device and method comprising a MVA-LCD comprising a wide view film on a color filter substrate corresponding to Figs. 4-5B; **AND**
- (3) the specifics of the device and method comprising a separate diffusive film corresponding to Figs. 3B and 5B; **OR**
- (4) the specifics of the device and method wherein diffusive pattern/particles are integrated with the substrate corresponding to Figs. 3A and 5A.

According to the species made by the Office Action, Applicants elect one Species of Group I corresponding to (1) a multi-domain vertical alignment thin film transistor liquid crystal display (MVA-LCD) comprising wide view films on a first and second surface of a thin film transistor

liquid crystal panel corresponding to Fig. 2 and (4) the diffusive patterns/particles are integrated with the substrate corresponding to Figs. 3A, specified in claims 1-2.

In addition, please withdraw claim 3 and cancel claims 4-12 without prejudice, disclaimer or waiver. Applicant also reserves the right to pursue the subject matter of the non-elected claims in a divisional application if Applicants so choose.
